AI-Powered Question Paper Generator

## HELP FILE

### 1 BASIC DETAILS

In the Basic Details section, you can configure the essential settings for the question paper, including Exam Duration, Maximum Marks, and whether the paper is a Theory Paper or a Problem Paper. If Problem Paper is selected, you can specify the percentage of problem-solving questions to be included. The application supports multiple languages, which can be selected from the language drop-down list. You can also enter instructions to be printed on the question paper and upload your school logo in this section.

### 2 PDF UPLOAD

Upload the source material for question paper generation here. The uploaded files may include study materials, textbooks, notes, or question banks. If you upload a question bank, make sure to specify it in the 'Generate Question Paper' Section(Step 4). You can upload multiple files. When multiple files are uploaded, specify the percentage or portion of questions to be generated from each file in the Question Settings section (Step 3).

## Add More Questions

### Include More Questions in All Sections

(When enabled, two additional questions will be generated for every section. Delete the unwanted questions before exporting or printing.)

## PDF-wise Mark Distribution

Allocate how much of the paper is generated from each uploaded PDF. The first PDF percentage is auto-calculated so the total equals 100%.

Maximum Marks: 40 Total Printed Marks Including Choices: 40 Distribution Basis: 40 Marks

PDF NAME	PERCENTAGE	PRINTED MARKS CONTRIBUTION
+1 Acc_Quick revision notes.pdf <small>AUTO</small>	100 %	40 Marks
+1 Accounting Concept Building by differentiating terms in accounting.pdf	0 %	0 Marks

If you turn ON this feature, additional questions will be added to each section. You must manually delete the extra questions before printing or exporting the question paper as a PDF.

If multiple PDF files are uploaded, specify the portion of marks to be taken from each PDF file.

## 4 GENERATE QUESTION PAPER
